Personal Profile:

I believe that play way skills elucidates to observe and gain insights into a child's problems. It also helps the child explore emotions and deal with unresolved trauma. Through play, children can learn new coping mechanisms and how to redirect inappropriate behaviours including creative problem solving skills, self-respect, empathy and respect for others, alleviation of anxiety, strong social skills and family relationship. I am passionate about working with children with special needs through play way method as it encourages the use language, as well as improves the fine and gross motor skills
