**Personal Profile:**

I am providing online training to empower parents in working with their children in various areas using play way method designed specifically for each child. I provide customized services based on the child's interest and strengths after validating the level of the child with the parent. The play way method activities and tools will help in developing the language along with other areas, focussing on the holistic development of the child. I strongly believe that parent can do a lot for the child and help in their overall development. I am also a parent and have worked with my child in the same manner.

Along with the online support for parents, I am also able to offer individual and group Play Therapy sessions for children with special needs.
