Both individual and group sessions catering towards academic, emotional, behavioural problems.

Personal Profile:

I am a Child Psychologist by profession working with children and students of different set up like schools and NGO's. While working with them for 10 long years, I have come to realise that many a time due to circumstances a child dosent want to express himself or herself, there comes the important role of a therapy like Play where an individual will love to engage oneself and in this way the root cause analysis is done and cater to the child's need.
