Personal Profile:

I work with children and Adolescents during the Counseling sessions I gauge the requirement of using Play or Art forms for enabling the client for their emotional expression also I use play and Art forms in Group therapy sessions with the focus on Communication skills, Emotional Expression, to express any kind of Abuse or trauma which is suppressed in their personality, also use play therapy for the children who lack verbal expression.

My practice is Client centred hence I do not stick to one kind of therapy, and use multiple therapies and forms as required by each client from case to case
