Physiotherapy and Play therapy for typically developing and differently abled children , both individual and group session. Physiotherapy in PICU and NICU and post operative and neuromuscular disease.

Personal Profile:

I am a Pediatric physiotherapy currently working on India in rainbow children hospital. I deal with children from pre term , and term babies in the NICU , to development delay cases , cerebral palsy children, Down Syndrome children, neuromuscular disorders like DMD, SMA . I also see post truma and post operative cases and children with sensory, behaviour, cognitive and communication deficit like ASD and ADHD . I feel just exercise is monotonous for a child and hence I strictly feel that rehabilitation should be made fun using the principles of Play Therapy and using toys which are developmentally appropriate for the child . Play is something voluntary, fun and it starts from a young age and continues till we are old .
