**Personal Profile:**

I am Parthasarathi. I work as a Child Psychologist and Play Therapist in Chennai. It has been one year since I am in this profession.

Play Therapy is a method of meeting and responding to the mental health needs of children and extensively acknowledged by experts as an effective and suitable intervention in dealing with children's brain development. The goal is to help children learn to express themselves in healthier ways to become more independent, empathetic and discover more positive ways to solve problems.
