Personal Profile:

I am a social worker who likes to work with children. Am passionate about play therapy and believe that it really improves quality of life for both kids and adults alike. I believe that play therapy can enhance social and cognitive skills, confidence, alleviate anxiety and improve quality of life in all spheres. I believe in child led play and a non judgmental attitude. I would like to work on various aspects like sensory, projective, pretend and role play. I would like to use a child centric and holistic approach rather than focus on labels.
